

MKS Clamping Element

Pneumatic Clamping element, designed to be used for holding a position when using Linear Rail Guides. Energize to open (NC).

Compatible with Linear Rail SBI only.

The holding forces may be in-creased by means of a PLUS connection, provided that this is listed under the technical data, by using the pneumatic pressure support of the spring accumulator.

Because of the height difference of different rail guide blocks and to ensure the proper function of the MK Clamping Elements, the use of adapter plates is sometimes needed. See document "Clamping Elements & Accessories" for individual block types and whether an adapter plate is needed.

Dimensions in mm.

More types are available, contact Rollco for further information.

Temperature: From -10 to 70°C

General Data

Designation	Compatible with	Fixing force (N)	Min. operating pressure (bar)	Operating pressure (bar)	Max. Operating Pressure (bar)
MKS1501A	SBI15, SBI15-B	400	5.5	6	6.5
